

## Barrel Clamps

Barrel Clamps - A Barrel Clamp is actually a mechanical or hydraulic attachment designed for a lift truck. It can be utilized to squeeze the object you wish to move with the lift truck and is usually used for handling paper rolls, barrels, and kegs. Some types of barrel clamp attachments also have a revolving function. Like for instance, the rotate function permits the one operating the forklift to be able to slot in a vertically stored paper into the horizontal intake of a printing press.
