

## Meritor Part

Meritor Part - Meritor is a premier global dealer which is proudly established on a 100 year custom of quality and service. They concentrate on a broad range of integrated systems, modules and parts to original machine makers and the aftermarket for the transportation and industrial trades.

Meritor values the requirements of their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred people, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

By just employing future focused workers, Meritor strongly feels these top-caliber workers will be able to rapidly get used to to changing surroundings and demonstrate the performance and commitment required to be able to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all of their workers various opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems utilized for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is likewise responsible for supporting the requirements of all their worldwide engineering workers.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located all around the world in 19 nations and in 5 different continents.

They have their supplier network which is specially located to be able to support the growth of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
