Clark Totalift has a very outstanding intercontinental support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark has a unrelenting mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly plants because this system is particularly economical and permits minimal use of resources. Established to guarantee maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for production facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing expenses. The new value engineering agenda combines progressive product improvement and provides improved customer support and service within the industry.
